

LIFE A WEIRD THING
IN HUNGARIAN CITY
Bolshevik Propagandists Are Everywhere and Leaving No Stone Unturned for Control.

PAINTING THE CITY RED

Quiet Movement of the Masses for Return of Law and Order Threatens Regime.

BUDAPEST, May 8.—(By Mail)—This first city still flaunts its color scheme arranged for the May day celebrations. The communists have seized the red banner on the castle which is the headquarters of Bela Kun, the big chief of the soviet. Red flags and red cloths which the government had put up were taken down by the communists. They keep their red flags up as they do not want to be seen.

"I have just been giving my wife her Saturday thrashing," he said. He added that he demonstrated the revolution and now everything is under his thumb and the sound of blows. Presently my host appeared and I asked him the cause of the commotion.

"I have just been giving my wife her Saturday thrashing," he said. He added that he demonstrated the revolution and now everything is under his thumb and the sound of blows.

You must never let your wife forget that you are her lord and master," declared the tyrant, rubbing his hands with evident satisfaction.

BIGGER AND BETTER TULSA IS OUTLINED

Rev. Abel Addresses Tulsa Boosters on "Building of a Bigger and Better Tulsa".

Over 300 members of the Tulsa Boosters Club attended the special services held in their home at the First Methodist church at 10:45 yesterday morning. The delegation was addressed by the Rev. Josiah Watson Atel on the subject of "Building a Bigger and Better Tulsa".

The boosters were accorded a great welcome by the members of the church and by the pastor. The first three rows of seats in the center aisle of the church were reserved for the honored visitors and were taken to capacity.

During the treatise on the subject Rev. Abel urged the co-operation of all the citizens in aiding the progress of the city, showing that the country wide efforts are being made to secure adherents.

Friends passes are working over the town, distributing anti-bolshevik posters of the greatest kind. Of course they hate capitalism and call upon all to beaten "vipers" or red soldiers.

All have work, including church

seeds, who have been fighting revolutionaries against who have been working for the betterment of money, but also with the country wide efforts are being made to secure adherents.

Friends passes are working over the town, distributing anti-bolshevik posters of the greatest kind. Of course they hate capitalism and call upon all to beaten "vipers" or red soldiers.

"An lucky beast!" he exclaims, "you see I've gotten thy house on thy back."

The magazine even dares to caricature little Hela Kun with his thick reddening lips, sometimes likened to a bull dog.

STILL SEFISH BRUTES.

The result of such propaganda is dismally indicated by the actions of those communists with whom the vacated Press correspondent code of conduct.

They looted in their temporary nests with a number

of new born babies in stamp in the corridor for six hours. These three men

all the time devoured Bolshevik literature but it never occurred to them to give to the tired woman. They

simply knew adversity but had

nothing else to do.

In the propagandist work gives employment to large numbers of persons and there are special training schools for art candidates. Regarding a group of young men speaking several languages went to the foreign office to seek employment and they were told that the only work that was open was to act as porters to go to Bucharest, Vienna, Paris and carry on propaganda work here and there in connection with the American idea that they would not attempt to disseminate their ideas abroad if they were alone at home.

Among the original converts who have been converted back again are the ironworkers union who have formed a secret guard of between thousand members to protect themselves from the Bolsheviks in their apartments. Count Apollonia's house is quite full. About half of her personal clothes and the family linen was removed to the last such place as the protest of his daughters who remained behind with a German governess. When the latter gave a complaint to the local red guard commander, he denied any knowledge of the regulation.

In many cases red guards are just as bad as the regular houses and they stay there fancy and the most terrible things which the propagandists have done there are many decent fellows among the red guards whose reputation may suffer from the black

beyond Soviet control.

Two women of American origin, Mrs. Elizabeth Shaeffer, a singer, and Mrs. Mary Wasserman of New York, who stayed in the Seligman banking family, have filled their houses with Bolsheviks in their apartments. Count Apollonia's house is quite full. About half of her personal clothes and the family linen was removed to the last such place as the protest of his daughters who remained behind with a German governess. When the latter gave a complaint to the local red guard commander, he denied any knowledge of the regulation.

In many cases red guards are just as bad as the regular houses and they stay there fancy and the most terrible things which the propagandists have done there are many decent fellows among the red guards whose reputation may suffer from the black

beyond Soviet control.

Another Cement Ship of Improved Pattern to Be Launched Soon

SAN FRANCISCO, May 21.—The new cement ship Paul Aite, recently launched at the government island plant at Oakland, differs materially both as to architecture and construction from the first concrete ship built there.

This system of steel reinforcing of the hull was diagonal, that of the Paul Aite horizontal and vertical. The concrete aggregate used in the Paul Aite was sand and cement, that of the Paul Aite sand, crushed rock, sand and cement, making the lighter concrete.

The San Francisco Shipbuilding company-builders of the Paul Aite directed the construction of the Paul Aite at the work being done under direction of the shipyards of San Leandro.

The hull of the Paul Aite

is 300 feet long and 40 feet wide.
